“Add @palette-entries to @font-feature-values, with the name of each declaration defining a name for a particular palette color, and the value being an integer for the index of that palette color.”

```
@font-feature-values Jupiter Sans {  
    @swash {  
        delicate: 1;  
        flowing: 2;  
    }  
}
```

```
font-variant-alternates: swash(flowing);
```

```
@font-feature-values Jupiter Sans {  
    @palette-entries {  
        primary: 1;  
        highlight: 2;  
    }  
}
```

```
font-palette: primary rgb(...), highlight rgb(...);
```

```
@font-palette-values Arizona {  
    font-family: Jupiter Sans;  
    base-palette: 3;  
    1: rgb(...);  
    4: var(--stuff);  
}
```

```
font-palette: Arizona;
```
