PRIVACY PRESERVING DIGITAL CREDENTIAL WALLETS & VERIFIERS

- Open Global Solicitation
- Application Information @ sam.gov
- Application Deadline is
15 September 2023 12:00 PM PT

In 2018, We Released Our Call for “Preventing Forgery & Counterfeiting of Certificates and Licenses”

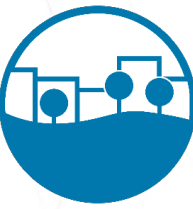

- DHS Operational Components need to issue, validate and verify entitlements, attestations and certificates
 - Citizenship and Immigration Status
 - Employment Eligibility
 - Essential Work and Task Licenses
 - Organizational Identity & Supply Chain Security
- DHS Operational Components may be both Issuers of Credentials and Validators and Verifiers of Credentials
- **Current issuance processes** are paper based, non-interoperable and susceptible to loss, destruction, forgery, and counterfeiting

PREVENTING FORGERY & COUNTERFEITING OF CERTIFICATES AND LICENSES

- Open Global Solicitation in 2018
- 200+ applications
- **Highly competitive** selection process
- 7 Selected Companies

Vendors build products ...

But ecosystems need building blocks ...

... to make hard things easy

... to ensure they are vibrant and interoperable

... to build-in and not bolt-on privacy and security

We seek to enable both products & building blocks!

Privacy Preserving Digital Credential Wallets & Verifiers

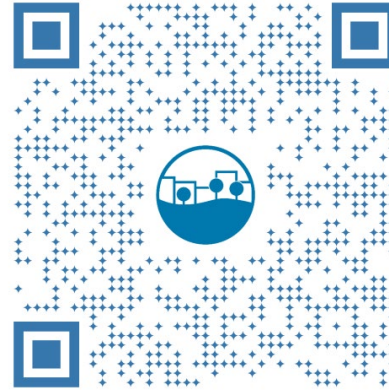

TTA 1 – Digital Wallet
SHALL incorporate one or more OSL(s)

TTA 2 – Mobile Verifier
SHALL incorporate one or more OSL(s)
