## Hi Badral,

>In this document ai, ei, oi, ui etc. are defined as spoken language spelling and ayi, eyi, oyi, uyi etc. are defined written language spelling. It is totally true.

Thanks a lot. we have consense on this point.

- >I don't understand, what did you mean as follows.
- >>But the the yi in the medial should encode as <U+1836, FVS1> if use \*yi, could not use any contextual condition to derive from default form.
- >We already solved all diphthongs with CALT rules. (without FVSs)

Yes. I was wandering that you or others solved the diphthongs with CALT rules without FVSs. It is the strongest disagreement point of us from the beginning of this discussion.

The reason is for example,

If you encode the word (SAIQAN) <U+1830><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+1820><U+182

how do you encode (SAYIQAN)? do you go back to encode it as <U+1830><U+1820><U+1826,

FVS1><U+1822><U+182C><U+1820><U+1828>.

It is nonsensble or self-deceiving way in the some meaning.

We are absolutely insist to encode the word (SAYIQAN) as <U+1830><U+1820><U+1820><U+1822><U+1820><U+1820><U+1828>.

It is more sensable, natural, logitic and widely acceptable encoding method thich is our main purpose for this thread.

There are a lot of this kind of words using regular medial YI in the Mongolian as Siqin committed the list in the Past.

I would like to ask you to recheck if my explanition is correct or incorrect?

Our target is not only ask all members to allow us to use ai, ei, oi, ui, oei, uei etc,

but also we have to reach the aggreement on not using FVSs for the regularly used form of U+1836 Y and U+1838 W, the default medial form

and and

In the document from Inner Mongolia Educational Publishing House have following sentance in Paragraph #5 means that we should encode the

regular used and accepted medial form and as default and without FVSs.

Thanks and Best Regards,

**Jirimutu**
