 - Perhaps some of them can be removed.
 - PAL is handling this.
 - PAL said as we resolve unused definitions, it will become clear which definitions are duplicated. For example, when the document body redefines something in the definition list.
- [GitHub pull request #181, Replace '' with links.](#) is ready for review

Action Items:

- PAL to handle unused definitions.
- CB to check if Chrome supports both cICP & iCCP chunks.
