Topics & Minutes:

- Getting to Call for Consensus
 - CL pointed out that all remaining issues are typographical in nature (and thus can be changed later) except [GitHub Issue 126: Add notes for things which are deliberately not specified](#).
 - It is unclear if we're done or not with Issue 126. We could publish and then see if any further discussion happens.
 - This would produce a new Working Draft which would be useful for TAG review, not (yet) Candidate Recommendation.
 - We can't start TAG review until we hear back from the Security horizontal review, right?
- Liaison received for SMPTE ST 2094-10 and it is being worked on.
- Next meeting time is when CB will be on vacation. Cancel?

Action Items:

- We should explicitly mention that if tone mapping parameters are set, the same tone mapping algorithm will be used to be consistent between two images. PAL to open an issue.
- CB to finish up Issue 126.
- CB to start CfC.
