## Topics & Minutes:

- The table of when mDCv can be specified (from the Aug 21st, 2023 meeting) was discussed in an email thread and seems fine. However, it does not mention “PQ (BT.2100), BT.709 / BT.2020, and optionally HLG (BT.2100)”. Should mDCv only apply to those CIECP signals?
  - It looks like we simply should use the word “MAY” when hinting that mDCv can be used.
  - We might want to suggest cases where it is commonly useful but not explicitly restrict mDCv to specific use cases. (Specifically, mention it may be useful to achieve optimal tone mapping.)
- Next steps towards wrapping up Third Edition.

## Action Items:

- CS to work on the CIECP / iCCP table.
- CB to email CL to check once blocking-3rd-edition-cr tasks are finished, can we go to Proposed Recommendation. And what is the process like after that? How long?
