

PNG WG Meeting Minutes

Apr 15th, 2024

Attendees:

(Alphabetical order)

Chris Blume

Chris Needham

Simon Thompson

Topics & Minutes:

- Changes section needs an update for a new snapshot

Action Items:

- CB to finish cICP libpng patches
 - libpng handles both reading and writing. I'm hoping to land the reading patch first. Writing feels trickier because of policy. I think it shouldn't be written by default until enough decoders support it.
- CB to make sure we only have 1 calendar
- CB to finish [GitHub issue 308](#)
- CS & ST to work on [GitHub issue 405](#)
