1 The user can select another Dimension. In this case, he selects the dimension "Articles" and the information about the articles is displayed

Adding/reading comments

1 A visual indication will identify that there is a comment on the graph. The user then, can click on it and the comment will be displayed.

If the user wants to add a comment, he clicks on the white rectangle and types. Once he finishes typing, he presses "enter" and the information is added

Note: More interactions on the *Comment Component* such as edit and delete a comment will be presented on next wireframes version)
