Shared Media Experiences

SharePlay

MediaSessionCoordinator API

Improvements

# MediaSession Coordinator

## Shared Media Experiences

- Characteristics
  - Coordinated playback
  - Shared playback controls
  - Group communication
- Examples
  - SharePlay
  - Google Duo live sharing
  - Watch Party, GroupWatch

# MediaSession Coordinator

**TPAC 2023**

Shared Media Experiences

SharePlay

MediaSessionCoordinator API

Improvements

# MediaSession Coordinator

## SharePlay

- Based on Group FaceTime
- Supported by GroupActivities public framework
- Watch Together, Listen Together, Screen Sharing, and more
- Group communication via FaceTime or iMessage

MediaSessionCoordinator API

Improvements

# MediaSession Coordinator

## MediaSessionCoordinator API

<https://github.com/WebKit/explainers/tree/main/MediaSessionCoordinator>

# MediaSession Coordinator

## MediaSessionCoordinator API

```
interface mixin MediaSessionCoordinatorMixin {  
    readonly attribute MediaSessionCoordinator coordinator;  
}
```

# MediaSession Coordinator

## MediaSessionCoordinator API

```
interface MediaSessionCoordinator : EventTarget {
    Promise<undefined> join();
    undefined leave();

    // closed, waiting, or joined
    readonly attribute MediaSessionCoordinatorState state;
    attribute EventHandler oncoordinatorstatechange;

    Promise<undefined> seekTo(unrestricted double time);
    Promise<undefined> play();
    Promise<undefined> pause();
    Promise<undefined> setTrack(DOMString trackIdentifier);
}
```

# MediaSession Coordinator

## MediaSessionCoordinator API

```
coordinator.addEventListener('coordinatorstatechange', (coordinator) => {  
    if (coordinator.state === 'waiting')  
        coordinator.join();  
});
```

```
playButton.addEventListener('click', event => {  
    if (navigator.mediaSession.coordinator.state === 'joined')  
        navigator.mediaSession.coordinator.play();  
    else  
        video.play();  
});
```

# MediaSession Coordinator

## MediaSessionCoordinator API

```
mediaSession.setActionHandler('play', () => {  
    video.play();  
});
```

```
mediaSession.setActionHandler('pause', () => {  
    video.pause();  
});
```

```
mediaSession.setActionHandler('seekto', details => {  
    video.currentTime = details.seekTime;  
});
```
